

HAAS ENTERTAINMENT

The Death of DVD's & CD's

**JOIN HAAS ENTERTAINMENT SYSTEMS
WITH KALEIDESCAPE & SONOS
Thursday, May 19th, 6 pm- 9 pm
Discussion begins at 7:00 pm**

**At our showroom:
5774 Uplander Way
Culver City, CA 90230
310.641.4700**

Centralize ALL YOUR MUSIC AND MEDIA and join us **as we raffle off the groundbreaking Sonos Player!**

Explore the new devices that offer more music than you could ever listen to, movies without losing any quality, and a raffle of a key component to making an awe inspiring home entertainment system for yourself.

The Sonos Music Player offers:

- Limitless amount of music with just an internet connection
- Crystal clear radio stations around the world
- Sirius Satellite radio without an antenna
- Totally free music services like Pandora and LastFM

And if you need music in another room, you add more Sonos Players wirelessly. It can also be controlled on any computer nearby, your iPhone, or a Sonos Controller.

kaleidescape

Kaleidescape

If you have a large DVD collection already, you can load those movies onto a Media Server like Kaleidescape that saves your movies bit for bit (no picture quality loss), backs it up in a solid state hard drive so you won't lose it, and easily find in your movie library. You can browse through your collection by cover art, actor, director, and even rating. Start a movie in one room and continue the same movie in another.

So if you are interested in why DVDs and CDs are fading away and how you can take advantage of all the media available on the internet and enjoy it in your home, come learn how.

The first 50 RSVP's get a raffle ticket for a Sonos Player we will be giving away so reserve your spot now!
